PREAMBLE:

THIS AGREEMENT is entered into by and between the CITY OF HENDERSON, hereinafter referred to as the CITY, and the INTERNATIONAL ASSOCIATION OF FIREFIGHTERS LOCAL 1883, hereinafter referred to as the UNION.

The purpose of this Agreement is to achieve and maintain harmonious relations between the CITY and the UNION; to provide for an equitable and peaceful adjustment of differences that may arise; and to establish proper standards of wages, hours and other conditions of employment.

ARTICLE 1. RECOGNITION:

The CITY OF HENDERSON recognizes the INTERNATIONAL ASSOCIATION OF FIREFIGHTERS LOCAL 1883 as the bargaining agent for the classifications listed in this Agreement for the purpose of collective bargaining as set forth in NRS 288.

ARTICLE 2. CLASSIFICATION AND REPRESENTATION:

Section 1: The CITY and the UNION agree that the following classifications are represented by the UNION:

- Firefighter
- Firefighter/Paramedic
- Fire Engineer
- Fire Captain
- Medical Services Officer
- Paramedic Ambulance Operator
- Public Education Specialist
- Senior Fire Investigator

Section 2: Representation by the UNION for the classifications listed in Section 1 of this Article shall cease to exist at such time that less than fifty percent (50%) of the employees so classified are members of the UNION.

Section 3: Firefighter employees covered by this Agreement who have successfully completed an accredited Paramedic Training Program and are issued Temporary Authorization to function as a Firefighter/Paramedic shall receive ten percent (10%) premium pay while completing their paramedic internship. After completion of the paramedic internship, but prior to placement in a budgeted Firefighter/Paramedic position, they will receive ten percent (10%) premium pay. Once placed into a budgeted Firefighter/Paramedic position, employees shall be paid at the rate established for that classification.

(a) It is understood that the Firefighter employees who are completing

their paramedic internship must receive their permanent Paramedic license issued by the Southern Nevada Health District and maintain that license in good standing to continue receiving the premium pay and be classified as a Firefighter/Paramedic.

- (b) Failure to maintain a Firefighter/Paramedic employee valid Paramedic license will return the employee to the classification of Firefighter provided a vacancy exists. Employees hired as a Firefighter/Paramedic have access to the Firefighter classification through Section 3 (c) only.
- (c) Should a vacancy exist, a Firefighter/Paramedic with ten (10) or more years of service may request to be reclassified to the classification of Firefighter. Such requests will be honored if the total vacancies within the Firefighter/Paramedic classification are less than ten percent (10%) of the approved staff complement for this classification. If more than one (1) Firefighter/Paramedic is requesting reclassification and only one (1) position is available, Department Seniority will determine who will be reclassified.

Section 4: Those persons hired as Firefighter/Paramedics shall be subject to all probationary requirements currently in force and in effect.

Section 5: Changes to existing job descriptions that do not involve work performance standards, the quality of services to be offered to the public or the content of the work day as set forth in NRS 288.150, shall be negotiated. Nothing in this Article shall be construed to require the CITY to fill position vacancies.

Section 6: The parties agree that after January 1, 2022, the first three (3) Firefighter positions that become vacant shall be converted to the classification of Medical Service Officer (MSO).

ARTICLE 3. WAGES:

Section 1: Negotiated wage adjustments shall be effective the first pay period of the fiscal year that includes July 1.

Section 2: Effective the first pay period that includes July 1, 2021, the base wage of classifications covered by this agreement shall be reflected in Exhibit A.1: Fire Contract Wage Schedule and reflect a two and ninety-five hundredths percent (2.95%) base wage increase.

Section 3: Effective the first pay period that includes July 1, 2022, the base wage adjustment of classifications covered by this agreement shall be based

upon the CPI (as set forth in Section 5 of this article) with a minimum increase of two and twenty-five hundredths percent (2.25%) and a maximum increase of three percent (3.0%).

- Section 4: Effective the first pay period that includes July 1, 2023, the base wage adjustment of classifications covered by this agreement shall be based upon the CPI (as set forth in Section 5 of this article) with a minimum increase of two and twenty-five hundredths percent (2.25%) and a maximum increase of three percent (3.0%).
- Section 5: The CPI used will be the percentage change in the “Annual” rate from the most recent preceding full calendar year minus the “Annual” rate from the previous preceding full calendar year as reflected in the All Items in West-Size Class B/C, all Urban Consumers, Not Seasonally Adjusted (Series ID CUURN400SAO) which is currently published by the Federal Bureau of Labor Statistics at <https://data.bls.gov/timeseries/CUURN400SAO>. (Example calculation in Exhibit E)
- Section 6: The CITY shall make a contribution each pay period to a retirement health saving plan (RHS) in the amount of \$36.50. This amount is net of the \$22.00 per pay period contribution per the provisions of the collective bargaining agreement for employee benefits referenced in Article 2, Section 5 of the Joint Benefits Agreement.
- Section 7: Movement between the Firefighter/Paramedic and Fire Engineer classifications will be accomplished through a competitive process consistent with the provisions of Article 29 Promotion.
- Section 8: Employees that promote to a higher rated classification, or are transferred to an equally rated classification, will be placed in their new range at least five percent (5%) above their current step, up to the maximum hourly rate for the range.
- Section 9: The collection from employees of overpayments made by the CITY will be addressed on a case-by-case basis. Should it be determined that an overpayment should be recovered, the following guidelines will apply:
- (a) The time period for the collection of the overpayment will mirror the time period of the actual overpayment. However, employees may choose a more expedited repayment schedule.
 - (b) As a general rule, no more than ten percent (10%) of the employee’s net pay each pay period may be captured as a repayment.
 - (c) Specific hardship consideration may be granted at the discretion of the Chief Financial Officer.

ARTICLE 4. INSURANCE:

ARTICLE 7. OVERTIME, CALL-OUT, RECOVERY, AND STANDBY PAY/METHOD OF PAYMENT:

Section 1: When overtime is necessary and is specifically authorized by the Fire Chief or their designated representative, the CITY's policy is to pay overtime as delineated herein. The CITY has the authority to schedule overtime and may direct employees to work outside their normal work hours.

Section 2: Work performed in excess of the employee's normal bi-weekly hours shall be overtime, defined and compensated as follows:

- (a) Regular overtime is that which accrues when an employee is directed to work beyond their regular bi-weekly hours. Regular overtime shall be paid at the rate of time and a half (1.5) the regular rate of pay. Overtime shall be earned and paid in increments of six (6) minutes. Overtime of less than six (6) minutes will not be eligible for

compensation. Overtime in excess of six (6) minutes will be rounded up to the next highest tenth (10th) of an hour.

- (b) Fifty-six (56) hour employees, having been called out on a regularly scheduled day off shall be paid at the rate of time and one half (1.5) the hourly rate of pay for all hours worked. Such an employee will be paid for a minimum of four (4) hours, and if released by their supervisor, be paid for the four (4) hours regardless of having worked less than the four (4) hour period. Overtime pay shall cease at the beginning of the employee's regular shift.

Senior Fire Investigators and MSO's scheduled to work on a regularly assigned day off shall be guaranteed four (4) hours work and paid at time and a half their regular rate of pay. Should the work assigned be completed before the four (4) hour minimum, and the employee requests to be released, they may do so with supervisory approval and be paid for the actual hours worked.

The four (4) hour minimum shall apply to:

- (1) Departmental-provided training.
 - (2) Mandatory meetings and/or training.
 - (3) Special events.
 - (4) Attendance for subpoenas.
 - (5) Fire rescue operation assignments.
- (c) Overtime hours for the thirty-eight (38) hour MSO and Senior Fire Investigator will be defined as hours worked outside the employees regularly scheduled shift each day and schedule each week and paid per the provisions defined in Section 2 (a) above.
 - (d) The Public Education Officer is classified as an exempt position and is not eligible for overtime payments under this Article.

Section 3: Method of Payment: In accordance with 29 CFR § 778.218, fire/rescue operations personnel assigned to a fifty-six (56) hour average workweek (2,912 hour/year) will be paid twenty-six (26) equal paychecks for one hundred twelve (112) hours of regular hours worked. (Overtime payment of time worked in excess of maximum hours in established twenty-four consecutive day work period.)

- (a) Firefighters working twenty-four (24) hour shifts (2,912 hours/year) shall be paid one hundred twelve (112) regular hours per pay period, regardless of the number of hours actually worked.

- (2) An employee working one hundred twenty (120) hours (5 shifts) in a pay period will have a negative eight (8) hour adjustment to arrive at one hundred twelve (112) hours. Firefighters will receive twenty-six (26) equal checks for one hundred twelve (112) hours of regular, sick or annual leave (excluding overtime, out of class pay, holiday pay, call-out pay, etc.) for a total of 2,912 hours per year.

The remaining terms within this Article are applicable to the Senior Fire Investigator (SFINV) classification.

Section 4: Shift Modification (SFINV ONLY): Should a thirty-eight (38) hour employee work additional hours before or after their normal shift, by mutual agreement between the employee(s) and their supervisor, the employee may elect to work their regular shift hours (i.e. 9.5 hours) and be released early or report after their normal start time, with no overtime obligation. Should the employee choose to work the remainder of their regular shift, or be required to for operational purposes, they would be entitled to overtime.

Section 5: Call Out Overtime (SFINV ONLY): Call Out Overtime is paid at double time. Call Out is defined and paid as follows:

- (a) Overtime scheduled with less than twenty-four (24) hours' notice,
- (b) Overtime scheduled after the completion of the regular shift or when an employee is on their days off and the employee is NOT required to report for the overtime assignment within twelve hours of the time of the call.
- (c) An employee who is called out shall be paid at least one (1) hour at double time, except for occurrences where Call Out Overtime overlaps with the start of their regular shift. Employees working call out overtime that overlaps with the start of their regular shift, shall receive double time up until the beginning of their shift, at which time double time shall cease because employees may not pyramid this double time with their regular hourly pay. Should the one (1) hour at double time overlap with the start of their regular shift, the employee shall be paid as follows:

- (1) Call Out Overtime for the time before the shift begins;
 - (2) Regular base wage hourly pay begins when the regular shift commences, and;
 - (3) A non-PERS eligible straight time pay code after the start of their shift to satisfy the one (1) hour minimum.
- (d) An employee completing the emergency call out in less than one (1) hour and is called out again before the initial hour has expired will not receive an additional hour of call-out pay.

Section 6: Call Back Overtime (SFINV ONLY): Call Back Overtime is paid at double time. Call Back Overtime occurs when:

- (a) An employee is called to return to work and report within twelve (12) hours of that call, and has already completed their regular shift, and is not in pay status.
- (b) An employee is on their normal days off and is called to return to work and report within twelve (12) hours of that call.
- (c) Call Back Overtime is PERS-eligible compensation, while regular overtime and Call Out overtime are not PERS-eligible compensation.
- (d) Employees enrolled in PERS on or after July 1, 2008 are subject to a different definition of call back per the decision announced on June 18, 2008 by the Public Employee's Retirement Board.

Call Back Overtime is paid as follows:

- (a) An employee who is called back shall be paid at least one (1) hour at double time, except for occurrences where Call Back Overtime overlaps with the start of their regular shift.
- (b) Employees working Call Back Overtime that overlaps with the start of their regular shift, shall receive double time up until the beginning of their shift, at which time double time shall cease because employees may not pyramid this double time with their regular hourly pay. Should the one (1) hour at double time overlap with the start of their regular shift, the employee shall be paid as follows:
 - (1) Call Back Overtime for the time before the shift begins,
 - (2) regular base wage hourly pay begins when the regular shift commences, and

- (3) a non-PERS eligible straight time pay code after the start of their shift to satisfy the one (1) hour minimum.
- (c) An employee completing the emergency call back in less than one (1) hour and is called back again before the initial hour has expired will not receive an additional hour of call back pay.

Section 7: Compensatory Time Off (SFINV ONLY): An employee working overtime as stated above, with the exception of Call-Back Overtime, may elect to be paid at the rate upon which the overtime was worked or to receive compensatory time off ("comp time") in lieu of overtime, which will be computed at the rate that the overtime was worked.

- (a) Comp time is accumulated based on the overtime rate being paid for the time worked.
 - (1) Work 10 hours at time and a half = 15 hours of comp time
 - (2) Work 24 hours at time and a half = 48 hours of comp time
 - (3) Work 10 hours at double time= 20 hours of comp time
- (b) Comp time is used on an hour-for-hour or partial hour basis
 - (1) Take off a 9.5-hour shift = 9.5 hours of comp time required
 - (2) Take off a 24-hour shift = 24 hours of comp time required
 - (3) Comp time can be used in quarter of an hour increments
- (c) Comp time will accumulate for the fiscal year, to the maximum allowed by the Fair Labor Standards Act (FLSA), which is currently two hundred forty (240) hours for non-fire suppression personnel and four hundred eighty (480) hours for fire suppression trained personnel. If it is not used during that time, it will automatically be paid out in its entirety, on the last payday in the month of June, regardless of when the overtime was worked.
- (d) An employee cannot accumulate comp time if the overtime worked is being paid at an out-of-class rate.
- (e) The use of comp time will not be granted if it results in the need for overtime staffing.

- (f) There is NO ability to request special checks or payouts of comp time earned before the automatic payment identified above.
- (g) Call Back Overtime is PERS-eligible compensation and cannot be converted to compensatory time off.
- (h) The accumulation of compensatory time off is a voluntary decision by the employee and they cannot be required to accumulate compensatory time off rather than be paid for the overtime worked.

Section 8: Recovery Time (SFINV ONLY): For every hour worked (or partial hour) on call-out, or call-back or regular overtime during the eight (8) hour period immediately prior to the employee's regular shift, the employee will be allowed to take the following day, an equivalent number of hours at their regular rate of pay, CITY paid recovery time. Recovery time should normally be used at the beginning of the regular shift to ensure the employee has had adequate rest before working their normal shift hours.

- (a) Regular, Call-Out or Call-Back Overtime of two (2) hours or less immediately prior to the employee's regular shift is not eligible for recovery time.
- (b) With supervisory approval, employees may use annual leave, banked holiday hours or compensatory time in addition to earned recovery time to cover their normal shift hours.

Section 9: Standby Time (SFINV ONLY):

- (a) Standby Time is paid at a double time rate of pay.
- (b) When calculating standby time on days that an employee is not normally scheduled to work, the twenty-four (24) hour time period will be from 0800-0800.
- (c) Employees required to standby on scheduled days off or holidays shall be compensated as follows:
 - (1) Greater than four (4) hours – up to twelve (12) hours of Standby: One (1) hour at the double time rate. An employee must be on standby for a minimum of four (4) hours to be eligible to receive the one (1) hour of double time; or
 - (2) Greater than twelve (12) hours – up to eighteen (18) hours of Standby: One and a half (1.5) hours at the double time rate; or

- (3) Greater than eighteen (18) hours of Standby: Two (2) hours at the double time rate.
- (d) Employees required to standby during the non-work hours adjacent to their regular shifts (this include the fourteen (14) hour period after the employee's last regular shift of their weekly schedule) shall be compensated as follows:
 - (1) Greater than four (4) hours – up to fourteen (14) hours of Standby: One (1) hour at the double time rate. An employee must be on standby for a minimum of four (4) hours to be eligible to receive the one (1) hour of double time; or
 - (2) Greater than fourteen (14) hours – up to eighteen (18) hours of Standby: One and a half (1.5) hours at the double time rate; or
 - (3) Greater than eighteen (18) hours of Standby: Two (2) hours at the double time rate.
- (e) Employees on standby shall keep their supervisors and necessary emergency personnel notified of their location for emergency calls and must remain fit for duty.
- (f) Employees on standby who are called to report for work shall be paid at least two (2) hours of double time at their regular rate of pay in addition to standby pay, except for occurrences where the Call Out/Call Back Overtime overlaps with the start of their regular shift. Employees working Call Back/Call Out Overtime that overlaps with the start of their regular shift, shall receive double time up until the beginning of their shift, at which time double time shall cease because employees may not pyramid this double time with their regular hourly pay. Should the two (2) hours at double time overlap with the start of their regular shift, the employee shall be paid as follows:
 - (1) the appropriate Call Out/Call Back code for the time before the shift begins,
 - (2) regular base wage hourly pay begins when the regular shift commences, and
 - (3) a non-PERS eligible straight time pay code after the start of their shift to satisfy the two (2) hour minimum.

- (g) When employees who are on standby are called out on holidays or days off, and the call-out work continues over the ten (10) hours in one (1) twenty-four (24) hour block of time, the employee may withdraw from any further work, due to exhaustion or fatigue, for a minimum of six (6) hours until the employee is to return to call out availability. The employee's supervisor shall arrange for relief workers if needed.

Section 10: Telephone Overtime (SFINV ONLY): Any operational issue outside the employee's normally scheduled shift that can be resolved through the use of a telephone or other technology that eliminates the need for the employee to report to work, shall be paid at a minimum of one (1) hour at time and a half (1.5) rate of pay. (Such calls are not compensable if the inquiry is incidental in nature and not directly related to on-going operations. An example of "incidental in nature" would be the location of a set of keys or tools). Should the employee receive a second call within the same hour, it would not be compensable. Should the employee receive another call more than an hour after the initial call, they would be entitled to an additional hour of compensation at time and a half (1.5) rate of pay.

Section 11: Duplication or stacking of overtime pay for the same period of time is not allowed. When two (2) or more provisions requiring compensation of overtime and premium pay are eligible for the same time period, the single provision most favorable to the employee shall apply.

ARTICLE 8. OFF-DUTY INJURIES:

Section 1: An employee who is incapacitated due to non-service incurred accidents or illness shall be entitled to draw their full wage against sick leave to the extent accrued. If the employee has exhausted their sick leave, annual leave shall be used until exhausted, then donated leave, and then shift trades to the extent available to cover the absence.

Section 2: The employee will continue to be eligible for benefits from the CITY's self-funded insurance plan while they are utilizing available accrued sick leave, then annual leave, then donated leave, and then shift trades, during the time of absence from work for the CITY.

Section 3: The CITY will allow an absence of up to a total of six (6) months, or to the extent the employee has any type of paid leave available, whichever is greater. If an employee has less than six (6) months of paid leave available, the employee must use all of their paid leave to be eligible for extended leave up to the total of six (6) months' of absence. Any employee who is on leave without pay per the provisions of this Section will remain eligible for benefits from the CITY's Self Insured Benefit Plan.

At the end of this time, the CITY may require a medical separation if, based on a licensed physician's evaluation and prognosis, the employee has suffered injuries that cannot be reasonably accommodated to allow the employee to perform the essential functions of their job. If the employee is medically separated, the employee will be eligible for COBRA coverage through the CITY's Self Insured Benefit Plan.

- (a) An employee who is discharged due to an off-duty injury may be eligible for rehire, upon written request by the employee, into an available position that is offered by the CITY which the employee has previously held and is qualified. At the discretion of the CITY, an employee's rehire shall be subject to:
 - (1) A medical release to return to work with or without reasonable accommodation from the employee's personal physician;
 - (2) Successful completion of the new hire physical agility test;
 - (3) Successful completion of the new hire background check.

Exhibit B: EMPLOYEE DEVELOPMENT and PERFORMANCE PROGRAM

THEORY OF EMPLOYEE DEVELOPMENT and PERFORMANCE PROGRAM

Punishment is the most difficult and unpleasant experience of work. Few employees enjoy being the focus of a disciplinary action, and few supervisors enjoy taking disciplinary action against an employee.

For most people, the only **discipline** that will be required during their working careers comes from the informal interaction they have with their supervisor. Informal resolution is best accomplished when supervisors **adequately explain expectations and:**

- Utilize effective *coaching* techniques.
- Ensure employees receive a sufficient level of *training*.
- Remove *obstacles* that interfere with success.
- Provide timely *feedback*.
- Arrange for *consequences* based on performance.

It is a fact that some employees, at least once in their career, will have a problem that must be dealt with. If the employee is treated as a professional who must solve the problem, the employee is more likely to respond positively and will solve the problem. It is also a fact that supervisors and employees can resolve the majority of all problems informally.

Employees contribute to informal resolution by:

- Taking responsibility for the elimination of problems.
- Acknowledging that the willful failure to take responsibility may result in discipline.

When it is determined that an employee is unwilling to solve a problem, management is placed into a difficult situation. Placing the responsibility for eliminating the problem squarely on the shoulders of the employee is often the only solution. Discipline is the compelling tool used to enforce that responsibility. Failure by an employee to correct a problem results in discipline.

It is the underlying theory of the EDPP that when supervisors and employees work together, most problems can be resolved informally without having to resort to formal disciplinary measures. Thus, EDPP consists of two parts, involving informal and formal processes.

EMPLOYEE DEVELOPMENT AND PERFORMANCE PROGRAM IS A TWO-PART PROCESS

The “Informal Process” involves techniques that are utilized to:

- Increase motivation and development.
- Prevent problems from developing.
- Ensure responsibility is not ignored.
- Discover mutually acceptable solutions to problems that do arise.

The “Formal Process” involves progressive disciplinary action, and occurs when:

- Attempts to resolve a problem informally fail.
- An employee is not taking responsibility to correct problems.
- Problems are of an immediate and serious nature and therefore cannot be dealt with informally.

WHAT IS A PROBLEM?

A problem can be defined as the difference between a management expectation and an employee’s success in meeting that expectation. Problems vary, but can generally be assigned to one of three distinct categories: Conduct, Attendance, or Performance. Each category is defined and examples are provided.

In each case, these are examples only. They are in no way intended to be all-inclusive for the category.

CONDUCT: Conduct is a mode or standard of personal behavior. It is how a person acts or carries themselves and how that person interacts with those around them. It is more closely related to personal behaviors than to performance of job tasks. Examples of poor conduct include:

Insubordination

- Challenge, criticism, or obstruction that interferes with management efforts.
- Willful failure to do an assigned job or obey an order.

Alcohol or controlled substances

- Reporting to work under the influence of or use of alcohol while on duty.
- Using or selling controlled substances.

Fighting

- An argument between parties, provoked or unprovoked, that is disruptive to others or the public.
- A hostile encounter between parties resulting in physical combat.

Threatening or striking another person

- Uttering an expression or intention to inflict harm to another person.

- Physically attacking or inflicting bodily harm to another person.

Dishonesty

- Falsifying personnel documents.
- Falsification of HFD records or incident reports.
- Lying.

Theft

- Engaging or conspiring in the theft of CITY property or supplies.
- Theft of the personal property of others.

Misconduct

- Indulging in boisterous conduct or obscene language in public view.
- Engaging in illegal activities, on duty or off duty.
- Inappropriate comments or slurs that may be deemed discriminatory or that create a hostile work environment.
- Violation of Personnel Directives, department policies, Rules and Regulations, or engaging in other activities disapproved by the department as stated in writing.

ATTENDANCE: Attendance relates not only to the ability of a person to arrive at work at the start of their scheduled shift, but also to be present at assigned locations throughout the shift. Examples of attendance problems include:

Tardiness

- Failure to report to work at the beginning of a shift, regardless of last minute unapproved trades.
- Failure to transfer from station to station or to an assignment in a timely manner.

Absenteeism

- Failure to notify supervisor of emergency absenteeism prior to the start of the work shift.
- Failure to call in on scheduled work day (no call/no show).
- Failure to arrive at work after calling in late.
- Failure to report to work at the conclusion of approved leave.

Abandonment

- Leaving the station, unit, or assigned work location without supervisor approval.
- Leaving the scene of an emergency incident without supervisor approval.

PERFORMANCE: Performance refers to a person's ability to do satisfactory and competent work. **Failure to follow established policies or rules and failure to meet performance standards are among the most common problems associated with performance. The former is within the power of a person to control, and may, therefore, logically result in discipline.** However, the need for increased training should be considered in making any disciplinary decision concerning the employee's

inability to perform to acceptable standards. Examples of performance problems include:

Appearance

- Failure to wear approved uniforms on duty.
- Wearing uniforms beyond their acceptable appearance.
- Failure to maintain a professional image on duty.
- Failure to maintain appearance within the guidelines of the HFD SOPs.

Safety

- Engaging in acts which expose any person to potential injury.
- Failure to use safety equipment provided by the HFD where appropriate.
- Failure to follow safety guidelines as prescribed by the HFD SOPs, Rules and Regulations, and Personnel Directives.

Performance of Duties

- Poor performance of routine and/or emergency duties or assignments.
- Poor performance while in a training or evaluation setting.
- Fails or is slow in reporting for emergency or non-emergency duties and functions.
- Fails to follow direction given by a supervisor or instructor.

COMPLEX PROBLEMS

Although problems are generally assigned to one of three categories, it is essential to remember that problems often involve factors that overlap into two, or even all three categories. For instance, a tardy employee who threatens the supervisor when confronted has demonstrated problems in two categories: Attendance and Conduct. As a result, that employee may receive discipline in two or more categories. Supervisors must remember that it is important to consider an employee's overall success in meeting expectations.

WHICH PROCESS DO I USE?

When a problem initially arises, the first question usually asked is: Should there be an attempt to resolve this problem informally, or does the problem warrant formal discipline? The answer to that question cannot be decided until the supervisor gathers some basic information concerning the problem.

- Was there negative action or negligence on the part of the employee that is intentional?
- Did the action or negligence involve a breach of safety or honesty, or have a negative impact on operations?
- Was the action or negligence a violation of policy?

INFORMATION GATHERING

Information gathering is a fact-finding mission, and the more time and effort put into finding out the facts, the easier the rest of the process will be. Information gathering usually starts as a conversation between the employee and supervisor to get a general idea of what happened. The supervisor should:

- Ask as many questions as needed to get the whole picture.
- Talk to co-workers, employees on other shifts, or anyone else with knowledge about the incident.
- Make a personal observation of any physical items involved.
- Listen attentively to what all parties have to say.
- Keep an open mind.

After all necessary information has been gathered, the supervisor should decide whether the problem can be handled by applying the Informal or Formal Process.

THE INFORMAL PROCESS

The underlying goal of the Informal Process is to prevent problems from developing and to quickly eliminate problems that do arise. Six strategies and techniques have been determined to be important components of an effective Employee Development and Performance Program, especially a program that places a great deal of importance on supervisor and employee responsibility. When these strategies and techniques are properly utilized, supervisors should have very few discipline problems. When a problem is first identified, the supervisor and employee attempt to resolve it through these six strategies:

- developmental ***Coaching***
- the application of ***Training***
- the removal of ***Obstacles***
- the timely delivery of ***Feedback***
- the arranging of ***Consequences***
- provide ***Counseling***

COACHING

Coaching is an informal, often times spontaneous discussion designed to assist an employee in developing knowledge, skills, and abilities. It is the everyday interaction between supervisor and employee that leads to employee development.

Praise and encouragement are the most effective coaching tools. They enable the supervisory coach to define exactly what they expect in a positive way. A good coach tries to be a “people developer” and you can’t develop people by tearing them down.

There are several coaching actions that can contribute to effective supervision:

- Provide employee with positive feedback.
- When you have to criticize, focus on the problem, not the individual's personality.
- Give employees both positive and negative feedback.
- Build and maintain strong relationships with employees.
- Confront employees with problems in their performance.
- Use active listening skills.
- Listen more than you talk.

As an effective supervisor, you will need to know what to coach and when to coach. Generally, you will need to assume the role of coach when a member of your work team does not know how to do an assigned task, performs a job incorrectly, or does not perform to prescribed standards.

Generally, if the performance problem is one of attitude or motivation, you may need to counsel the employee.

Once you identify an area that requires coaching, either through direct observation or an employee's direct request for help, you can develop a coaching plan. Elements of a plan may include:

- Let employees know what is expected of them by clearly defined standards and job responsibilities. Develop a work plan with agreed upon tasks and completion dates.
- Let employees know how they are doing through positive and negative feedback, evaluation of performance, and documentation of strengths and weaknesses.
- Mutually develop a plan for improvement. Monitor progress in areas that need strengthening and suggest and provide appropriate training. Recognize and praise performance improvement.
- Remember the principles of effective communication. (Effective supervisory practices, Third Edition, Chapter 9)

Theory: If an employee seeks assistance in resolving a problem, there is a chance that the problem can readily be resolved. If a person does not recognize that a problem exists, that person will have no reason to change their behavior.

Guidelines for Effective Coaching:

- Resolutions should be discussed in terms of what is desired by the Fire Department.
- Employee's comments or reactions should be encouraged.
- The supervisor should provide a rationale for policies or rules in question.
- All persons involved should listen carefully. A tip to assist in the communication process is to re-state what is heard to ensure adequate understanding.
- Commitments to change should be sought, and the door should be kept open for future discussions about the problem.

- Supervisors should express confidence in the employee's ability to improve.
- Coaching sessions should end on a positive note.

TRAINING

Training employees for their jobs and developing their skills and abilities are important responsibilities of the supervisor. Part of your job will be to create a climate for learning by endorsing training activities, encouraging employees to take advantage of them, and helping them in every way to grow on the job.

Training consists of activities designed to provide employees with the knowledge, skills, and abilities required to do the job properly. Training usually takes place in a structured format with pre-established objectives. Problems can arise when employees are not provided with an appropriate level of training. When this occurs, attempts to resolve the problem any other way would be unsuccessful. Training deficiencies may be identified during Coaching sessions, or the supervisor may have to make a more thorough inquiry into the employee's training history.

Theory: If an employee lacks the necessary knowledge, skills, or abilities, they will be unable to perform effectively.

Guidelines for effective Training

- Supervisors who believe that a lack of training may be contributing to a problem should ensure that job requirements haven't changed since the employee was initially trained and that the employee has received appropriate training in all elements of the job.
- Any deficiency in training should be addressed by providing the employee with the training needed.
- The supervisor should monitor the employee's performance to determine if the training was successful.

OBSTACLES

Removing obstacles involves ensuring the employee has the time, tools, equipment, and proper direction required to do the job. It may involve determining if anything outside of the supervisor's immediate attention prevents the employee from doing the job properly. Removing obstacles means that it is important to look below the surface. Again, problems in this area may be identified during Coaching sessions. Supervisors should be sensitive to concerns and issues relating to the employee's personal situation. Should the supervisor identify personal issues relating to performance, the utilization of the Employee Assistance Program is encouraged.

Theory: If a person does not have the time, tools, or equipment needed to do a job, receives conflicting instructions, or has serious personal problems that interfere with doing the job, that person will be unable to do the job properly.

Guidelines for removing Obstacles:

- Supervisors should ensure the employee has the time, tools, and equipment required to do the job properly.
- Determine if anything, either from within the organization or from outside of the organization, is preventing the employee from doing the job right.
- Determine that specific actions have been taken to remove known obstacles.

FEEDBACK

Supervisors should give employees feedback to tell them how they are doing. Feedback can be used to discipline, correct, inform, or praise the performance of employees.

Many supervisors mistakenly assume that employees know both how well they are doing and how well their supervisor thinks they are doing. It is the supervisor's responsibility to tell employees about their performance through feedback.

Giving feedback to all employees - good and poor – is important. If we offer feedback just to poor performers, we ignore the needs of good employees who should be recognized for their efforts. Giving positive feedback is worth a supervisor's time. By not correcting less productive performers through feedback you may be implying that you are pleased with their performance.

Feedback is the act of providing specific qualitative and/or quantitative information about conduct, attendance or performance, in relation to a given standard or goal. For example, when a problem arises, the supervisor may elect to Coach the employee as a method of informal resolution. If the problem does not go away at that point, the supervisor should provide timely feedback on the employee's success or failure at resolving the problem. Otherwise, the problem may not go away or may become worse.

Theory: If a person does not know exactly how well or how poorly they are doing, there is no way their performance can be improved. Regular, short-term feedback is essential.

Guidelines for effective Feedback

Supervisors should evaluate the following questions:

- Does the employee know exactly how well they is doing?
- Does the employee get regular, short-term feedback about job performance?
- Have expectations been clearly identified with the employee?

CONSEQUENCES

Arranging consequences consists of ensuring it actually does make a difference, both to the employee and the organization, that a job is done and done correctly.

Theory: If an employee determines that it actually doesn't matter if the job is done correctly, or if the consequences of doing a job properly or quickly are unpleasant, ultimately they will stop doing it correctly. For example: Does doing the job properly or quickly result in additional work for the employee?

Guidelines for arranging Consequences

Supervisors should evaluate the following questions:

- What differences does it make to the employee if they perform as they are supposed to? Are employees motivated to do the right thing?
- What happens when the employee does the job poorly or fails to do it at all?

COUNSELING

Counseling is a serious discussion between a supervisor and an employee designed to correct employee problems. Counseling is planned, has a specific purpose, and is intended to result in a specific action(s). When the supervisor identifies a problem that requires more than a coaching session or determines that coaching has failed to resolve a problem, they should make arrangements to conduct a Counseling Session with the employee.

Counseling Procedure:

Once the supervisor has made a decision to Council an employee, the next level supervisor will be contacted and informed of the proposed counseling. For FRO the Captain will contact the Battalion Chief. The Battalion Chief or next level supervisor will confirm the counseling recommendation by:

- Comparing the counseling against the employee's disciplinary matrix.
- Determine whether or not the counseling conforms to the discipline process and is consistent with previous decisions in similar circumstances.

If the Battalion Chief or next level supervisor confirms the counseling recommendation a Counseling session should be performed and documented using the HFD Disciplinary Action Form. A copy of the form will be given to the employee, a copy will be maintained by the Captain or next level supervisor for 6 months and the counseling session will be entered into the disciplinary matrix by the Battalion Chief.

If the employee's disciplinary history will not allow counseling or if it is determined that previous similar circumstances have resulted in formal discipline, the Captain or supervisor and the Battalion Chief or next level supervisor will move to the Formal Discipline Process and conduct an Investigative Interview.

Theory: Counseling is designed to assist an employee in eliminating a problem so that formal discipline will not be necessary.

Guidelines for Effective Counseling:

The guidelines for effective counseling are similar to those for effective coaching. However, supervisors are encouraged to consider the use of privacy, appropriate communication techniques, and overall tone of discussion to differentiate a counseling session from a coaching session. Counseling sessions should end on a positive, yet serious note. They should be approached with the understanding that if the employee fails to make necessary changes:

- Problems should be stated in terms of desired versus actual conduct, attendance, or performance.
- The employee should be encouraged to provide comments or reactions.
- The supervisor should provide a rationale for policies or rules violated.
- All persons involved should listen carefully. A tip to assist in the communication process is to re-state what is heard to ensure adequate understanding.
- Commitments to change should be sought and the door should be kept open for future discussions about the problem.
- Necessary changes and appropriate time frames for compliance should be explained so that employees are aware of specific actions required of them.
- Supervisors should express a confidence in the employee's ability to improve.
- Counseling sessions should end on a positive yet serious note.

SUMMARY

Supervisors should integrate the use of informal techniques into their everyday management style. If they do so, they will see a decline in the number of problems they must address. The use of informal techniques should become second nature.

Attention to the six strategies or techniques by the supervisor is an important step to assist the employee in eliminating a problem. It can then be more easily determined when a problem persists, that the employee has not taken enough responsibility upon themselves to eliminate the problem.

Employees who do not respond to informal resolution techniques compel the supervisor to consider formal disciplinary action. This action moves us to the formal discipline process.

THE FORMAL PROCESS

The Formal Process occurs as a result of either a failure of the Informal Process to eliminate a problem, or as an immediate response to a serious problem that could not have been dealt with informally. A decision to use the Formal Process begins after the supervisor completes their information gathering and conducts a review of all informal steps that may have been taken. Once a decision to use the formal process is reached, the Supervisor will continue the process with the next level supervisor. For FRO, the

Captain will proceed with the Battalion Chief.

The Formal Process consists of:

- Preparing and conducting an Investigative Interview.
- Utilizing the decision making process in regards to discipline.
- Preparing and conducting an Administrative Hearing, if applicable.
- Documentation.

PREPARING FOR AN INVESTIGATIVE INTERVIEW

Disciplinary actions should follow the offense as soon as reasonably possible and offenses must not be allowed to build up before action is taken. Before meeting with an employee to discuss a problem that may lead to discipline, the supervisors should take the time to prepare. The basic steps of preparation include:

1. Gathering information concerning the incident or violation to justify the potential for formal discipline. The goal is to gather enough information to ensure that the incident can be adequately addressed.
2. Reviewing notes from the information gathering process or documents from previous efforts at resolving the problem. **If any information suggests that the incident may be criminal in nature, the investigation or violation shall be immediately referred to the Fire Chief or designee. If it is determined that the incident may be in violation of the CITY harassment policy (sexual, racial, workplace violence, etc.) it shall be referred to the Fire Chief or designee, then forwarded to the Director of Human Resources or designee.**
3. Preparing an agenda outlining major points to be covered in the meeting.
4. Providing the employee with notification of the meeting location, date, and time.
5. Ensuring that the employee has time to secure union representation.

Once the steps taken to prepare are complete, the supervisors will then meet with employee to discuss the problem. This is known as an Investigative Interview.

CONDUCTING AN INVESTIGATIVE INTERVIEW

The Investigative Interview is a formal meeting in which the supervisor and the Battalion Chief or next level supervisor and employee discuss the problem at hand. The supervisors identify the problem and discuss facts, evidence, etc., obtained during the information gathering phase. Section I of the HFD Disciplinary Action Form is completed to document the Investigative Interview.

During the Investigative Interview, the employee is afforded the opportunity to provide an explanation. This explanation may be given during the meeting or the employee may elect to submit a written response to the supervisor who is conducting the investigation

up to 48 hours later (or at a mutually agreed upon time).

The Investigative Interview should be conducted by the immediate supervisor and the Battalion Chief or may be conducted by the Fire Chief and/or their designee, depending upon the nature and seriousness of the event leading to the meeting. Important points to remember during any meeting between supervisors and employees are:

Privacy: Meetings should always be held in private. When problems are discussed openly in front of others, people tend to become defensive and try to save face.

Listen: An effective meeting is a two-way conversation, not a lecture. The supervisor should remember that the employee may have a valid reason for what they did, or the employee may not know that they violated a rule.

Tone: The tone of this meeting should be neutral.

Use the Golden Rule: Individuals who become involved in this process are still dignified human beings and should be treated as such. Treat others as you would want to be treated if the roles were reversed.

Feedback: Any actions or non-action should be communicated to the employee within fifteen (15) calendar days.

MAKING A DECISION IN REGARDS TO DISCIPLINE

Once a Captain or supervisor and the Battalion Chief or the next level supervisor has conducted an Investigative Interview and has considered any response the employee may offer, a decision regarding formal action must be made. An initial evaluation of whether disciplinary action is appropriate involves the supervisors asking certain questions. These questions are intended to provide a remedial check on supervisory strategies:

- Is there sufficient evidence that the employee violated a rule or procedure? Can I demonstrate that the employee understood a rule/policy that was violated?
- Can I demonstrate that the employee knew in advance that such behavior would be subject to disciplinary action?
- Can I demonstrate that the rule violated was reasonably related to the safe, efficient, and orderly operation of the organization?
- Can I demonstrate that the employee committed an intentional act or omission?

After answering these questions, the supervisor should then utilize the Disciplinary Algorithm.

DISCIPLINARY ALGORITHM

The Disciplinary Algorithm is a tool that assists supervisors in determining the appropriate level of discipline to apply. The Disciplinary Algorithm prompts the supervisor

by asking questions that are designed to help determine the degree of seriousness of the offense and the impact of the offense upon the Fire Department.

When the supervisor applies the circumstances of the offense to the Disciplinary Algorithm, they will be led to an appropriate range of disciplinary actions. The supervisor should select the lowest action necessary to compel the employee to take responsibility for eliminating the problem.

The Disciplinary Algorithm is designed to assist a supervisor in reaching a reasonable recommendation based solely upon the merits of the case at hand. The final level of disciplinary action will be governed by the rules of the disciplinary program software.

The Disciplinary Algorithm requires the supervisor to consider three very important factors: **safety, honesty**, and if there has been a **negative impact** on Fire Department operations. Determining where the infraction falls in relation to these three queries will help the supervisors remain consistent throughout the decision-making process.

SAFETY

It is incumbent upon the Henderson Fire Department and each employee to provide as safe a working environment as possible. Safety is one of the most serious considerations that must be addressed by the supervisor.

Theory: Safety is of paramount importance, therefore safety rules and policies must be closely monitored.

Questions to Ask: Supervisors must determine the following:

- Does the employee's action result in a potential threat to the safety of other personnel or oneself?
- Does the employee's absence result in a potential threat to the safety of personnel or operations?
- Was there willful or intentional disregard for a safety rule or policy which was known to the employee?

HONESTY

Honesty and integrity are two of the most important characteristics of employees who are given the trust of the public and their fellow employees and are therefore taken very seriously.

Theory: A working environment where employees cannot be trusted is a destructive one. Dishonesty or lack of integrity cannot be tolerated in any work environment.

Questions to Ask: Supervisors should evaluate the following questions:

- Does the infraction or explanation of the infraction involve dishonesty or untrue statements?

- Is there sufficient evidence of dishonesty or witnesses who lead the supervisor to doubt the employee's honesty?
- Does the infraction involve theft, and is there sufficient proof of employee involvement?
- Do the facts or evidence support the employee's account or explanation?

NEGATIVE IMPACT

Although all infractions impact day-to-day operations in one way or another, the supervisor must consider which of these presents an overall negative impact on the department. Negative impact relates to the department's inability to quickly recover from the costs or ramifications resulting from the employee's infraction.

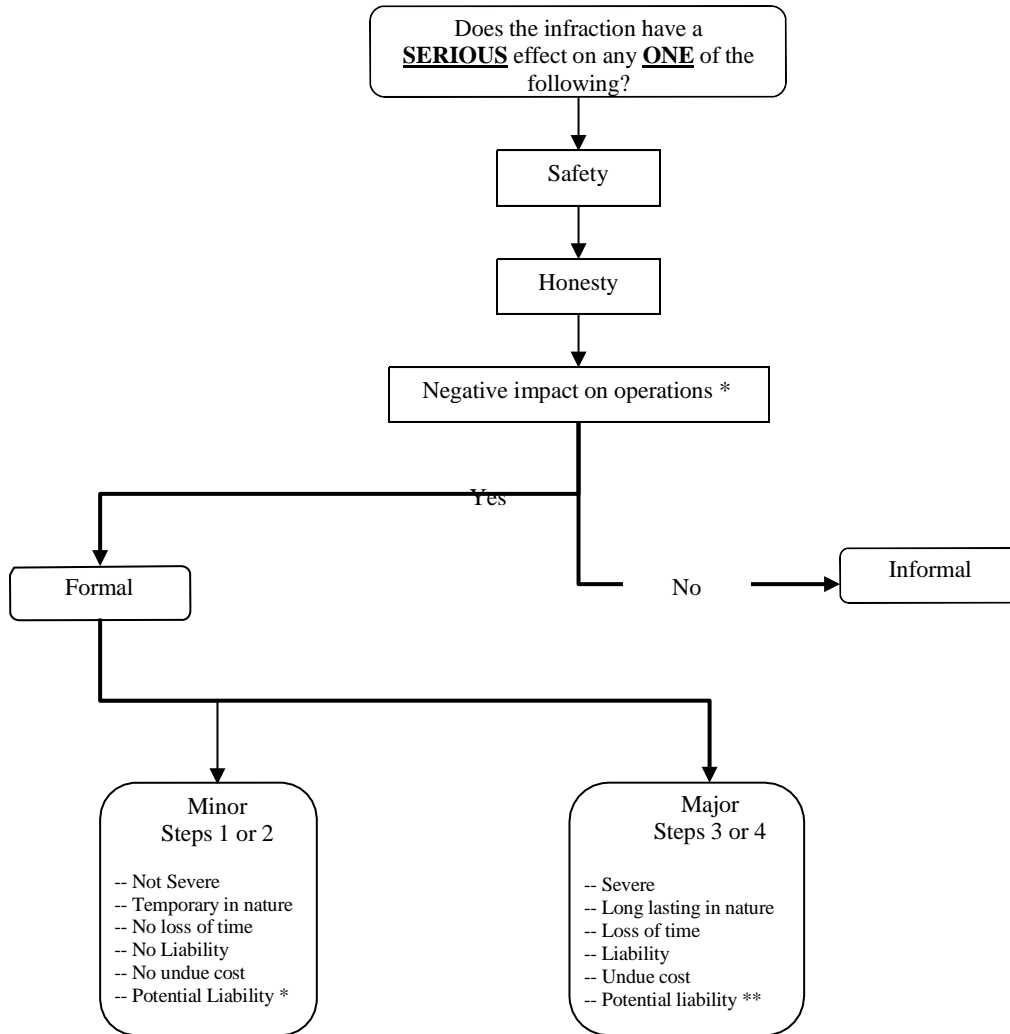

Theory: Since the Fire Department is a publicly funded, service oriented organization, its operations are constantly scrutinized. Infractions which result in undue costs or embarrassment to the department are counterproductive to the success of the department's overall mission.

Questions to Ask: The supervisor should evaluate the following items:

- Did the employee's actions have a negative impact on department operations?
- Did the employee's actions cause the department loss of time, undue cost, serious liability exposure, or potential liability?
- Does the action bring negative attention to the department?

Once the above-mentioned items have been considered, the supervisor must determine the severity of the infraction. Was this a **minor** or **major** infraction? A minor infraction is usually not severe, is temporary in nature, and does not result in undue cost or liability/potential liability to the department or CITY. A major infraction is usually severe, long-lasting, or results in undue costs or liability/potential liability to the department or CITY.

DISCIPLINARY ALGORITHM

* Injury, cost, damage to public image or negative impact on operations

** If intervention had not occurred the infraction could have caused bodily injury or high cost to the city.

DISCIPLINARY ACTION STEPS

There are four progressive steps of disciplinary action in the Formal Process. They are:

Step 1: A Step 1 action places an employee on written notice by the supervisor that failure to correct a problem could lead to more serious discipline. This action has an active life span of 6 months.

Step 2: A Step 2 action involves a minimum of a written notice to a maximum of a one-half shift suspension without pay. A Step 2 is given when the action warrants more than a Step 1 action or when a Step 1 action is not available. This action has an active life span of 9 months.

Step 3: A Step 3 action involves a suspension. The suspension period will be a minimum of one work shift to a maximum of one workweek **without pay** (For 56-hour personnel, one work shift is 24 hours, one workweek is 56 hours. For 38-hour personnel, one work shift is 9.5 hours, one workweek is 38 hours). This action has an active life span of 12 months.

Step 4: A Step 4 involves a suspension but the suspension period will be one shift with pay. This action has an active life span of 12 months. This is the most serious disciplinary action in the EDP process. Paid time away from work is provided to the employee so that they may decide on whether employment with the Fire Department is in their best interest. Except in the most unusual circumstances, any additional formal discipline during the active period of a Step 4 will result in a termination hearing.

DISCIPLINARY DECISIONS AND MATRIX ENTRY

Once the supervisors make a decision concerning the level of discipline to be taken the action will be compared against the employee's disciplinary history and a determination will be made as to whether or not the action conforms with the discipline process and is consistent with previous decisions in similar circumstances.

All supervisors must remember that once a decision has been made to take formal disciplinary action, it must be able to stand up to scrutiny. Problems occur when:

1. There is insufficient evidence to support the action.
2. Procedures and legal requirements have been overlooked.
3. The case is unable to withstand counterpoints from the employee.
4. The action proposed is not consistent with previous decisions in similar circumstances.
5. The action proposed is unacceptable considering the employee's *overall* disciplinary history.

After the proposed action is confirmed a disciplinary meeting is held to inform the employee of the action. The action will be documented on the disciplinary form and in the matrix. The Matrix will be maintained by the Battalion Chiefs

Note: Any discipline greater than a step 2 requires an administrative hearing prior to action being taken.

COMMON QUESTIONS ARE:

- Are the three categories of problems (Conduct, Attendance, Performance) strictly independent of each other?
- Are we required to be strictly progressive in the application of discipline within each of these categories?

The answer to each question is no. The EDPP stresses that discipline be based upon the employee's overall success at meeting managerial expectations.

RULES, MATRIX AND CONCEPTS

A few rules apply to the application of the different steps of discipline.

Rule #1: Disciplinary actions have active life spans. Active is defined as the total time period the disciplinary action weighs against the employee. The active life spans are:

Counseling: 6 months

- Step 1: 6 months
- Step 2: 9 months
- Step 3: 12 months
- Step 4: 12 months

For instance, if Employee X receives a Step 1 disciplinary action on January 1, 1999, it becomes inactive on June 30, 1999, 6 months from the date the action was imposed, providing no further problems occur during that 6 month period. If further problems do occur prior to June 30, 1999, the active life span shall be extended, as explained in Rule #2.

Rule #2: Active life spans are subject to *linking*. This is done to ensure that documentation of prior disciplinary actions, often considered a basis for more progressive disciplinary action, is not lost.

Continuing the example above, if Employee X were to receive a Step 2 disciplinary action for any offense on March 1, 1999, the active life span of the Step 1 already given is extended by the life span of the Step 2, or 9 months. The Step 1 and Step 2 actions will remain "active" until November 30, 1999 unless an additional disciplinary action is imposed prior to November 30, 1999, which would extend both actions even further.

The EDPP is structured to prevent repetitive disciplinary action, which is counterproductive for both the employee and the Fire Department.

Repetitive disciplinary actions are controlled by Rule #3, which limits the number of active actions in any step. This ensures that progressively more serious discipline is imposed, when necessary.

Rule #3: The total number of active actions in any given step are listed below. When these limits are exceeded, the action must move up to the next step.

Counseling: No more than 1 in each category.

Formal Actions:

- Step 1: No more than 2 total
- Step 2: No more than 2 total
- Step 3: No more than 2 total
- Step 4: No more than 1 total

For an example of how Rule #3 is to be applied, let's say that Employee X has been progressively disciplined for Attendance and Performance (see matrix below) and has yet to demonstrate a problem in the category of Conduct. Let's now say that Employee X develops a problem in the category of Conduct that must be dealt with. What Step(s) are available, considering the three rules above?

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling		X	X
Step 1		X	X
Step 2		X	
Step 3		X	
Step 4			

The answer is a bit unique. Employee X may be counseled or given a Step 2 or greater disciplinary action. The rules allow counseling in each category. However, the rules will not allow more than two Step 1 actions, which Employee X already has. Employee X has only one active Step 2 action, and is therefore eligible for one more to reach the maximum of two. Let's continue the example by stating that it has been decided that Employee X should receive a counseling session for the first problem in the category of Conduct. The option to impose a Step 2 action at this time is not being taken. The progression would then look like this:

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2		X	
Step 3		X	
Step 4			

As it now stands, Employee X has been counseled for problems in each category and has been progressively disciplined in the category of Attendance up to a Step 3 action. Employee X has also been progressively disciplined in the category of Performance up to a Step 1 action. Let's now say that Employee X again demonstrates a problem in the category of Conduct that must be addressed with discipline. What option is available? Answer: Employee X is not eligible for a Step 1, but would automatically face at least a Step 2 for the Conduct problem. Rule #3 prevents three active Step 1 actions. This may not seem progressive in the category of Conduct, but the overall behavior is the defining criteria. The progression chart now looks like this:

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	
Step 4			

To demonstrate how overall behavior is the focus of a successful program, let's demonstrate how Employee X can reach a Step 4 action in the category of Conduct without receiving a Step 3 action in that same category. Referring to the progression chart below, you will see that Employee X received an additional Step 3 action for a problem in the category of Performance, putting Employee X at the maximum number of Step 3 actions permitted (two). A Step 2 in Performance is not allowed under the rules since Step 2 actions are still active.

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	X
Step 4			

When Employee X then demonstrates yet another problem in the category of Conduct, the supervisor is forced, when considering the rules, to impose a Step 4 action against Employee X. The progression chart below demonstrates that an employee can reach a Step 4 action in a category without having received all of the available progressively less serious actions.

	CONDUCT	ATTENDANCE	PERFORMANCE
Counseling	X	X	X
Step 1		X	X
Step 2	X	X	
Step 3		X	X
Step 4	X		

Why did Employee X receive a Step 4 action under the category of Conduct? Because the rules are designed to ensure that Employee X's overall disciplinary history is taken into account. There are significant disciplinary actions in Attendance and Performance (Step 3's) that demonstrate that Employee X, overall, is not taking adequate responsibility for correcting problems.

What does this really mean? It means that discipline may progress across categories. This is an essential component of a successful disciplinary program. When an employee is held accountable for their overall behavior, the employee is more likely to improve.

The example of Employee X is intended to demonstrate the progression of discipline. Absent in the example are the Investigative Interviews (defined earlier in this guide), Administrative Hearings, and the Disciplinary Meetings that are part of the process.

ADMINISTRATIVE HEARINGS

Administrative Hearings will be scheduled whenever the event leading to disciplinary action is of such a nature that any resulting discipline may be greater than a Step 2 action.

The Administrative Hearing is a formal meeting in which the employee is afforded the opportunity to provide an explanation directly to the Fire Chief or designee regarding the event(s) leading to the proposed disciplinary action. The Administrative Hearing also allows the Fire Chief or designee the opportunity to ask questions pertaining to the event(s).

The employee and union will receive written notification of the hearing location, date, and time. Notification shall include the specific actions upon which discipline may be based and any corresponding policy or rule violation, if appropriate. The employee and union will be afforded a minimum of seven (7) calendar days from notification to prepare for the hearing, unless both parties mutually agree to meet at another date and time.

The employee may choose to respond in writing to the specified charges. If the employee responds in writing, the response must be received by the Fire Chief or designee no later than the date and time specified for the hearing. The employee may choose to appear in person and/or be represented by a Union representative.

Following the Administrative Hearing, a decision regarding the appropriate disciplinary action to be taken, if any, will be made by the Fire Chief or designee. All decisions will be governed by rules of the Formal Process. The decision will be communicated to the employee within fifteen (15) calendar days after the Administrative Hearing, unless a different timeline is mutually agreed to. The decision is communicated during a Disciplinary Meeting by the Fire Chief or designee.

DISCIPLINARY MEETINGS

Disciplinary Meetings are conducted by the immediate supervisor or Captain and Battalion Chief or the Fire Chief or designee after an Investigative Interview or Administrative Hearing to inform the employee of disciplinary action decisions. The Disciplinary Meeting is documented in Section II of the HFD Disciplinary Action Form. The nature of a Disciplinary Meeting is informational, as the necessary discussions and reviews have already been completed.

Supervisors should not allow Disciplinary Meetings to lead to debate. Employees who are not satisfied with the result of this meeting should be referred to the grievance article of the appropriate collective bargaining agreement. Supervisors should consider the following recommendations related to a Disciplinary Meeting:

Before the Meeting:

The supervisor shall notify the employee of their right to representation. Section II of the HFD Disciplinary Action Form must be completed with the following information:

1. Level of disciplinary action.
2. Date of infraction.
3. Date of the Administrative Hearing, if any.
4. Effective dates of the disciplinary actions.
5. Suggested corrective action(s).

During the Meeting:

1. Explain to the employee the level of disciplinary action to be taken.
2. State the specific problem in terms of **desired versus actual** conduct, attendance, or performance, and the changes expected.
3. Ask the employee to confirm understanding.
4. Indicate your confidence in the employee's ability to perform properly.
5. Secure signature(s) of the employee and/or witness(es) involved.

After the Meeting:

1. Distribute copies of the HFD Disciplinary Action Form, as noted on the form.
2. Monitor the employee's performance.

DOCUMENTATION

All disciplinary actions must be documented. Counseling sessions are maintained solely by the immediate supervisor and the employee. The Fire Department disciplinary matrix will be updated by the Battalion Chief to reflect the counseling session. Step 1 through 4 actions are maintained within the Fire Department disciplinary matrix, as well as in the employee's Human Resources file.

PURGING DISCIPLINARY ACTIONS

Disciplinary actions may be purged from Human Resource files when:

- A written request is submitted to the Human Resources Director.
- All disciplinary action in a category will be removed when the active life span has been reached.

NOTE: The active life span of disciplinary actions and purge dates are extended by any leave that exceeds 30 consecutive calendar days, unless a written exemption is obtained from the Fire Chief.

TERMINATION

Termination is not discipline. Termination may result as a consequence of a one-time serious event but most often results from an employee's continued failure to accept responsibility for elimination of problems and/or failing to meet management expectations. Therefore, termination is considered solely as an administrative act separating an individual from CITY employment. The process of notifying the individual shall be accomplished in a manner conducive to good order and with respect for that person's dignity and privacy. This will typically be accomplished by the Fire Chief or the designee.

Note: In cases where serious discipline is indicated but termination may not be warranted, demotion may be considered.

REPRESENTATION

Overview: During meetings, which are informal in nature, such as coaching and counseling sessions, the involvement of an employee representative is not required. During meetings that involve or may likely lead to formal discipline, representation is an important component.

Employee Rights: The supervisor shall notify the employee of their right to have union representation present during any meeting that may result in formal disciplinary action. If an employee requests that a union representative be present, the supervisor must contact a local 1883 Principal Officer or those persons authorized to act on behalf of the union. If there are none available, the meeting shall be postponed until a representative is available. All Henderson Fire Department employees are protected by the "Garrity Rights" in any disciplinary process that may involve criminal activity. The Garrity Rights prohibit the use of statements gathered during an investigation in subsequent criminal proceedings. As stated under Preparing for an Investigative Interview, if any information suggests that the incident may be criminal in nature, the investigation or violation shall be immediately referred to the Fire Chief or their designee.

During the Disciplinary Meetings: Supervisors should follow proper procedures whether a union representative is present or not. If the employee or union disagree with the

disciplinary action, a grievance can be filed and the situation reviewed through the grievance procedure. Informal actions and counseling are not subject to the grievance procedure. Steps One through Four are subject to the grievance procedure. The supervisor should not fail to take disciplinary action because of the possibility that the action may be grieved.

BACKGROUND

The IAFF member cannot receive payments with FECA and through the City that would exceed their full salary.
7. Nothing in the terms of this MOA guarantees that the City will continue to participate in the FEMA program in perpetuity.

8. This MOA shall be considered an amendment to the current labor agreement between the City and the Union, and will continue to be included as an exhibit to any amended labor agreements until the City terminates the Interlocal Agreement.
9. Either the County or the City may terminate the Interlocal Agreement upon thirty (30) days written notice to each other. The City has the sole discretion as to whether the City desires to terminate the Interlocal Agreement. This MOA shall expire concurrently with the termination of the current Interlocal Agreement.

Example Calculation:

CPI for preceding full calendar year (Annual column) = 159.756

Less CPI for previous preceding full calendar year (Annual column) = 157.019

Equals index point change = 2.737

Divided by previous preceding full calendar year (2.727/157.019) = 0.0174

Result multiplied by 100 = 1.74%

*In this example, the base wage increase would be 2.25% per the minimum in Article 3, Section 5.
